Segment Software Version Description
Netscape Enterprise Server (NSDIRY)
Version 1.0.0.0/1.03 (Windows NT 4.0)

September 29, 1997

Table of Contents

Preface

The following conventions are used in this document:

Bold	Used for information that is typed, pressed, or selected in executables and instructions. For example, select **connect to host**.
Italics	Used for file names, directories, scripts, commands, user IDs, document names, and Bibliography references; and any unusual computerese the first time it is used in text.
<u>Underline</u>	Used for emphasis.
Arrows <>	Used to identify keys on the keyboard. For example <Return>.
"Quotation Marks"	Used to identify informal, computer-generated queries and reports, or coined names; and to clarify a term when it appears for the first time. For example "Data-Generation Report."
`Courier Font`	Used to denote anything as it appears on the screen or command lines. For example `tar xvf dev/rmt/3mm`.
Capitalization	Used to identify keys, screen icons, screen buttons, field, and menu names.

1. Software Version Description

1.1 Scope

This Software Version Description (SVD) contains a description of the Netscape Directory Server (NSDIRY) segment for the Defense Information Infrastructure (DII) for Windows NT-based machines.

1.1.1 Identification

Segment Name:	Netscape Directory Server
Segment Type:	COTS
Prefix:	NSDIRY
Home Directory:	*C:/h/COTS/NSDIRY*
Required License:	Netscape Directory Server License
Version Number:	1.0.0.0/1.03
Platform:	Intel PC with Windows NT 4.0

1.1.2 System Overview

Purpose:	NSDIRY is a directory server application produced by Netscape Communications Corporation that manages the storing of and access to directory information. Access to the directory is performed with the lightweight directory access protocol (LDAP).
Usage:	NSDIRY can be used to manage a corporate-wide directory of users and resources, providing an open-systems method for centralizing the storage and retrieval of enterprise user information.
References:	"Netscape Directory Server - Administrator's Guide (NT)" from Netscape Communications Corporation (accompanies each licensed copy of the Netscape Directory Server). On-line documentation accompanies the software, and additional documentation can be downloaded from Netscape at *http://www.netscape.com/*.

1.1.3 Product Information

Product Qualification:	NSDIRY has been approved for delivery by the DII Engineering office.
Product	DISA purchased a 95,000 person user license for each of the SuiteSpot

Restrictions: servers. Thus, as long as fewer than 95,001 users are being served, DISA can deploy an unlimited number of Netscape Directory Servers. This product can not be distributed to foreign countries.

Product Dependencies: This segment requires that a functioning web browser program be present on the system prior to installation.

This segment requires that the commercial off-the-shelf (COTS) product, Netscape Directory Server, has been installed on the target computer before the actual segment is installed via the COE Installer program. If the incorrect version of Netscape Directory Server is installed, the installation will terminate.

2. Referenced Documents

This and other segment documentation provides segment description and installation instructions. User administration and usage is provided in the Netscape Directory Server Administrator's Guide for Windows NT. Further information about this product can be obtained from the Netscape Communications Corporation web site at:
http://search.netscape.com/comprod/server_central/index.html

This page intentionally left blank.

3.   Version Description

3.1   Inventory of Material Released

Two 3.5" diskettes comprise the software delivery. One is labeled "1 of 1; master" and the other "1 of 1; backup." Each tape contains NSDIRY in "MakeInstall" format. Also included in the delivery are 3.5" floppy disks containing the delivery documentation.

3.2   Inventory of Software Contents

The software delivered is "Directory Server, Version 1.03" as produced by Netscape Computer Communications, Corporation.

3.3   Changes Installed

Not applicable.

3.4   Waivers

The following delivery documents have been waived by the DII Engineering Office: Software Requirements Specification, Database Design Document, System Administrator's Manual, Software User's Manual, Operator's Manual, and Software Test Plan.

3.5   Adaptation Data

Not applicable.

3.6   Installation Instructions

Installation Instructions for this segment are provided in a separate document. The segment requires 1MB of disk space and 32 MB of RAM.

3.7   Possible Problems and Known Errors

None.

This page intentionally left blank.

4. Notes

None.
